YOU don't believe it, do you? Here it is: Take two SHRED-DED WHEAT BIS-CUITS; heat them in the oven to restore crispness, pour hot

milk over them; add a little cream and salt to suit the taste.

Or, if you don't like milk, try it this way: Heat two Biscuits in oven to restore crispness; then dip them quickly in salt water, place a piece of butter on the Biscuit, allowing it to melt into the shreds.

Or, heat the Biscuits in oven, dip them in milk, drain, and fry in butter, after which they may be served with a little cream, if desired.

A little fruit makes the meal even more wholesome and adds little to the cost. Try one of these tomorrow.

Shredded Wheat is made of the choicest selected white wheat, cleaned, steam-cooked and baked. Try it for breakfast to-morrow with milk or cream. The Biscuit is also delicious for any meal in combination with fresh or preserved fruits.

TIMELY TOPICS.

It is said that invanity is on the in-crease in Montreal owing to drink-ing and the atreauous life.

Why not impound the dogs of w along with the other vicious canis that are running loose?

You can't smoke eigarettes if you are under sixteen, and you can't sell eigarettes to anyone under sixteen. That is the law and it abould be enforced. It is even asid that many young girls have become vic-tims of the habit, in some of the Caradian cities. Let us hope that none of the little girls of Hell are addicted.

Newspaper venders in Moscow are obliged to wear a certain uniform, and the police can prevent them from pursuing their vocation if they do not appear clean and tidy.

Spiriture.

Comarried women are called spin-sters, or spinaling women, because it was a maxim among our forefathers that a young woman should not marry until abe had spun enough lines to fur-nish her house. All unmarried, old or young were tien called prinaters, a membralli retailed in all legal docu-ments.

By Hook or by Crook.
"By hook or by crook" is an allusion
to an accient manorial custom which
permitted the neightoring poor to take
all the wood that they could reach and
pull down from the forest trees, using
only their shepherd's crooks.

To stop bleeding at the nose cut some bletting paper about an inch square, roll it about the size of silead in the bleeding. The hollow in it will allow the sufferer to breathe. The blood will fill the space between the tube and the toses and will very soon coagulate and cause to flow.

His Mark.

The cross mark, still used occasionsly instead of a signature, did not originate in ignorance. It was always appended to signatures in mediaeval times as an attentation of good faith.
